Number of Occupiess. As in many instances lambellers occupy more than one farm, it has been considerable to ascertain the number of process buring more data one holdings from our blordway proposed, in which the Eumanutor was regulared to enter the same of the standard proposed in which the Eumanutor was required to enter the same of and the bloodly in which it was affunded. The numbers are given in Table VI, $^{\circ}$ counties and provious. On comparing the results in this table with the figures in the many of the standard and provious.
